PROFESSIONAL SUMMARY

Fresh graduate in Information Systems from Universitas Andalas (GPA 3.59, Cum Laude) with hands-on full-stack web development experience using PHP (Laravel, CodeIgniter) and JavaScript (Express.js, React.js), along with a solid object-oriented programming foundation in Java (Android Studio, JavaFX). Experienced in designing systems from requirements analysis through deployment, including enterprise (ERP) system implementation and business process modeling (UML, BPMN). A fast learner who adapts quickly to new technologies and is eager to further develop backend framework skills such as Spring through hands-on training. Holds firmly to the values of honesty, discipline, and teamwork in achieving shared goals.

EDUCATION

B.Sc. in Information Systems — Universitas Andalas, Padang — *2022 – 2026*
GPA 3.59 | Cum Laude Honors | Completed in 3 years 11 months

WORK EXPERIENCE

Manager & Co-Founder — *Sandar Mini Fruit Bar (Fruit-Based Beverage SME) — Aug 2026 – Oct 2026*

- Managed operations as manager and co-founder of a fruit-based beverage SME (milkshakes, smoothies, coffee, and real fruit drinks)
- Contributed to building the business brand, covering brand identity and product positioning in the market
- Conducted market and business feasibility analysis to support decisions on establishing the business and developing products
- Managed and coordinated employees in the day-to-day operations of the business

Volunteer Data Analyst & GIS Mapping — *Padang City Government — Galodo/Flood Disaster Emergency Response — December 2025*

- Collected and analyzed emergency response data from multiple local government agencies (BPBD, Fire Department, Transportation Agency, Satpol PP, and others) across affected districts in Padang City
- Performed GIS mapping of affected locations and response points to support the city government's emergency decision-making coordination
- Compiled cross-agency data into a structured dataset for emergency response reporting purposes

Social Media Specialist — *Andalas University Career, Counseling, Development Center and Tracer Study — Oct 2022 – Apr 2023*

- Produced 4–5 social media content designs per week to support the publication of career and tracer study information
- Managed regular Instagram Story activation to increase information reach among students
- Performed maintenance of computer equipment within the work unit

ORGANIZATIONAL EXPERIENCE

Chairperson, Information Systems Student Association (HMSI) — *Universitas Andalas — 2024 – 2025*

- Led the restructuring of the association's governance, covering 6 divisions and 52 annual work programs
- Coordinated 59 active members in carrying out routine and incidental work programs
- Built partnerships with 6 student associations from various universities and 4 local companies to support work programs

Vice Chairperson, Information Systems Student Association (HMSI) — *Universitas Andalas — 2023 – 2024*

- Supported the chairperson in managing the association's daily operations involving 49 members
- Served as person in charge of the HMSI-Fest program, attended by 150+ participants
- Acted as a liaison between the board and members in conveying aspirations and policies

Community Service & Training Member — *Enterprise Systems Study Group — 2025*

- Took part in an ERP infrastructure training team for 40 participants on enterprise system implementation
- Prepared training materials on implementing Odoo ERP within an organization
- Contributed to a community service program in Tanah Datar implementing a geospatial-based attendance system

Community Service & Training Member — *Laboratory of Enterprise Application (LEA SI UNAND / LPBD) — 2024*

- Involved in managing a laboratory that handled 3 practicum sessions for courses related to enterprise systems
- Served as a training assistant/facilitator on website development for 37 students
- Supported the implementation of the “SILAB” system as part of the laboratory's community service program

Regional Coordinator — *Jambi Students Association (IKAMI Jambi) — Jan 2024 – Feb 2024*

- Coordinated educational outreach activities to 6 schools in the Batanghari region
- Served as presenter/motivator in 4 sessions with a total of 1,000+ student participants
- Maintained partnerships with 6 partner schools to sustain the program

Deputy Chief of Organizing Committee, LKMMTD FTI 2023 — *BEM KM FTI Universitas Andalas — Jun 2023 – Oct 2023*

- Coordinated 7 committee divisions in organizing an event attended by 250+ participants
- Responsible for security and smooth execution of the event over 3 days
- Served as a liaison between the event chief and 94 other committee members

KEY PROJECTS

Asset Management Information System (Sarpras V1.0) — PPSDM Bukittinggi — *Fullstack Developer*

- Built a web-based asset management system (PHP, CodeIgniter 4, MySQL) for a government institution
- Developed asset borrowing, damage reporting, and role-based access control features

Integrated Workflow Management Information System — Alter Studio — *Fullstack Developer (Final Thesis Project)*

- Designed a role-based access system (Admin, Manager, Owner, Photographer, Editor, Client) for workflow management
- Integrated booking & payment (Midtrans), automated scheduling, and a performance reporting dashboard

FarmUnand Application — Livestock Digital Platform — *System Analyst & Programmer*

- Analyzed and designed business processes (UML, BPMN) for a livestock product marketplace platform
- Developed mobile & desktop applications using Java (Android Studio) and JavaFX

Blueseer ERP Implementation — Dewata Vape Store — *ERP Implementation Consultant — 2025*

- Implemented an open-source ERP system to optimize multi-branch distribution and operations
- Handled inventory management, purchasing, accounting, and logistics scheduling modules

Full portfolio (including a data science project and 10+ UI/UX design works) is available at fajrinputrapratama.my.id

TECHNICAL SKILLS

- Programming Languages & Frameworks: Java (OOP, Android Studio, JavaFX), PHP (CodeIgniter, Laravel), JavaScript (Express.js, React.js), Python
- Databases: MySQL, PostgreSQL, Redis
- Design: Figma
- Enterprise Methodologies & Tools: UML, BPMN, ERP Blueseer, Design Thinking, Prototyping
- Others: Tailwind CSS, Bootstrap, Streamlit, Scikit-Learn
